- Re PTM on "Skateboard Field Sites at Dowyamaze and Sary Ozek":

- Well done.

- Let's watch the language. In next to last line we said "site was first observed in [redacted] I assume we should have said -- "site was present in photography of May, etc"!

Ch, IEG -

Re BIIR of Feb 70 on "Shuang/Chengtze MTC Activity, July - Dec 1969":

- I notice Nature did not include any photos in this BIIR. After reading the text I believe that I understand why.

- Generally, we should include at least one photo in BIIRs, unless doing so serves no useful purpose, as in this case.

CA, IEG -

- Take a thoughtful look at your PIR of Feb 70 on "Military Deployment Dispersal and Defensive Activity in China."

- It is an interesting way of offering such information, but there are some questions in my mind as to whether or not this was the best way.

- In other words, I am not bitching about this one, but I am wondering if we could have served our customers better with some different style of presentation in this (& like future) case(s).
